Journal of Neuroimmunology

Author Index (Vol. 59)

Alder, H., see Kalman, B. (59) 195
Aschauer, H., see Sachs, G. (59) 83

Bach, J.F., see Shanmugam, A. (59) 165
Bell, R.B. and Ramachandran, S.
The relationship of TAP1 and TAP2 dimorphisms to multiple sclerosis susceptibility (59) 201
Bennetts, B.H., Teutsch, S.M., Heard, R.N.S., Dunckley, H. and Stewart, G.J.
TAP2 polymorphisms in Australian multiple sclerosis patients (59) 113
Berga, S.L., see Caggiula, A.R. (59) 103
Blankenhorn, E.P., Stranford, S.A., Martin, A.-M. and Hickey, W.F.
Cloning of myelin basic protein-reactive T cells from the experimental allergic encephalomyelitis-resistant rat strain, LER (59) 173
Bonaiuto, C., see Meda, L. (59) 29
Breimer, D.D., see De Vries, H.E. (59) 1
Brown, H.W., see Maier, W.E. (59) 65

Caggiula, A.R., McAllister, C.G., Matthews, K.A., Berga, S.L., Owens, J.F. and Miller, A.L.
Psychological stress and immunological responsiveness in normally cycling, follicular-stage women (59) 103
Caillat, S., see Shanmugam, A. (59) 165
Carr, D.J.J., see Halford, W.P. (59) 91
Carton, H., see Zamani Ghabanbasani, M. (59) 77
Cassatella, M.A., see Meda, L. (59) 29
Cassiman, J.J., see Zamani Ghabanbasani, M. (59) 77
Ceska, M., see Meda, L. (59) 29
Copie-Bergman, C., see Shanmugam, A. (59) 165

Dal Canto, M.C., see Nicholson, S.M. (59) 19
De Boer, A.G., see De Vries, H.E. (59) 1
De Groot, C.J.A., Theeuwes, J.-W.M., Dijkstra, C.D. and Van der Valk, P.
Postmortem delay effects on neuroglial cells and brain macrophages from Lewis rats with acute experimental allergic encephalomyelitis: an immunohistochemical and cytochemical study (59) 123
Demissie, S., Rogers, C.F., Hiramoto, N.S., Ghanta, V.K. and Hiramoto, R.N.
Arecoline a muscarinic cholinergic agent conditions central pathways that modulate natural killer cell activity (59) 57
Dermietzel, R., see Kunz, J. (59) 41
De Vries, H.E., Hoogendoorn, K.H., Van Dijk, J., Zijlstra, F.J., Van Dam, A.M., Breimer, D.D., Van Berkel, T.J.C., De Boer, A.G. and Kuiper, J.
Eicosanoid production by rat cerebral endothelial cells: stimulation by lipopolysaccharide, interleukin-1 and interleukin-6 (59) 1
Dijkstra, C.D., see De Groot, C.J.A. (59) 123
Dunckley, H., see Bennetts, B.H. (59) 113

Gebhardt, B.M., see Halford, W.P. (59) 91
Gehrmann, J., see Kunz, J. (59) 41
Ghanta, V.K., see Demissie, S. (59) 57
Göber, I., see Sachs, G. (59) 83
Goebel, H.H., see Tews, D.S. (59) 185
Gu, X.X., see Zamani Ghabanbasani, M. (59) 77

Halford, W.P., Gebhardt, B.M. and Carr, D.J.J.
Functional role and sequence analysis of a lymphocyte orphan opioid receptor (59) 91
Harry, G.J., see Maier, W.E. (59) 65
Heard, R.N.S., see Bennetts, B.H. (59) 113
Hickey, W.F., see Blankenhorn, E.P. (59) 173
Hiramoto, N.S., see Demissie, S. (59) 57
Hiramoto, R.N., see Demissie, S. (59) 57
Hoogendoorn, K.H., see De Vries, H.E. (59) 1
Huang, Z., see Petitto, J.M. (59) 135

Jokinen, D.M., see Nicholson, S.M. (59) 19

Kalman, B., Alder, H. and Knobler, R.L.
Junctional region of the myelin basic protein-specific T cell receptor β chain in mice (59) 195
Kim, B.S., see Nicholson, S.M. (59) 19
Knobler, R.L., see Kalman, B. (59) 195
Krause, D., see Kunz, J. (59) 41
Kuiper, J., see De Vries, H.E. (59) 1
Kunz, J., Krause, D., Gehrmann, J. and Dermietzel, R.
Changes in the expression pattern of blood–brain barrier-associated pericytic aminopeptidase N (pAP N) in the course of acute experimental autoimmune encephalomyelitis (59) 41

Liu, Y., Whitlock, B.B., Pultz, J.A. and Wolfe, Jr., S.A.
Sigma-1 receptors modulate functional activity of rat splenocytes (59) 143
Luster, M.I., see Maier, W.E. (59) 65

Maier, W.E., Brown, H.W., Tilson, H.A., Luster, M.I. and Harry, G.J.
Trimethyltin increases interleukin (IL)-1α, IL-6 and tumor necrosis factor α mRNA levels in rat hippocampus (59) 65
Manzini, S., see Palma, C. (59) 155
Martin, A.-M., see Blankenhorn, E.P. (59) 173
Marynen, P., see Zamani Ghabanbasani, M. (59) 77
Matsuda, M., Tsukada, N., Miyagi, K. and Yanagisawa, N.
Increased levels of soluble vascular cell adhesion molecule-1 (VCAM-1) in the cerebrospinal fluid and sera of patients with multiple sclerosis and human T lymphotropic virus type-1-associated myelopathy (59) 35
Matthews, K.A., see Caggiula, A.R. (59) 103
McAllister, C.G., see Caggiula, A.R. (59) 103
Meda, L., Bonaiuto, C., Szendrei, G.I., Ceska, M., Rossi, F. and Cassatella, M.A.
β-Amyloid(25–35) induces the production of interleukin-8 from human monocytes (59) 29
Melvold, R.W., see Nicholson, S.M. (59) 19
Miller, A.L., see Caggiula, A.R. (59) 103
Miyagi, K., see Matsuda, M. (59) 35

Nicholson, S.M., Jokinen, D.M., Dal Canto, M.C., Kim, B.S. and Melvold, R.W.
Genetic analysis of susceptibility to Theiler's murine encephalomyelitis virus-induced demyelinating disease in the SWR strain (59) 19

Owens, J.F., see Caggiula, A.R. (59) 103

Palma, C., Urbani, F. and Manzini, S.
Interleukin-6 production by U373 MG, a human astrocytoma cell line: different pathways involved in substance P and lipopolysaccharide activation (59) 155
Petitto, J.M. and Huang, Z.
Molecular cloning of the coding sequence of an interleukin-2 receptor α subunit cDNA in murine brain (59) 135
Pultz, J.A., see Liu, Y. (59) 143

Quirico-Santos, T., Ribeiro, M.M. and Savino, W.
Increased deposition of extracellular matrix components in the thymus gland of MDX mouse: correlation with the muscular lesion (59) 9

Ramachandran, S., see Bell, R.B. (59) 201
Rasoul-Rockenschaub, S., see Sachs, G. (59) 83
Raus, J., see Zamani Ghabanbasani, M. (59) 77
Ribeiro, M.M., see Quirico-Santos, T. (59) 9
Rogers, C.F., see Demissie, S. (59) 57
Rossi, F., see Meda, L. (59) 29

Sachs, G., Rasoul-Rockenschaub, S., Aschauer, H., Spiess, K., Göber, I., Staffen, A. and Zielinski, C.
Lytic effector cell activity and major depressive disorder in patients with breast cancer: a prospective study (59) 83
Savino, W., see Quirico-Santos, T. (59) 9
Shanmugam, A., Copie-Bergman, C., Caillat, S., Bach, J.F. and Tournier-Lasserve, E.
In vivo clonal expansion of T lymphocytes specific for an immunodominant N-terminal myelin basic protein epitope in healthy individuals (59) 165
Spaepen, M., see Zamani Ghabanbasani, M. (59) 77
Spiess, K., see Sachs, G. (59) 83
Staffen, A., see Sachs, G. (59) 83
Stewart, G.J., see Bennetts, B.H. (59) 113
Stranford, S.A., see Blankenhorn, E.P. (59) 173
Szendrei, G.I., see Meda, L. (59) 29

Teutsch, S.M., see Bennetts, B.H. (59) 113
Tews, D.S. and Goebel, H.H.
Expression of cell adhesion molecules in inflammatory myopathies (59) 185
Theeuwes, J.-W.M., see De Groot, C.J.A. (59) 123
Tilson, H.A., see Maier, W.E. (59) 65
Tournier-Lasserve, E., see Shanmugam, A. (59) 165
Tsukada, N., see Matsuda, M. (59) 35

Urbani, F., see Palma, C. (59) 155

Van Berkel, T.J.C., see De Vries, H.E. (59) 1
Van Dam, A.M., see De Vries, H.E. (59) 1
Van der Valk, P., see De Groot, C.J.A. (59) 123
Vandevyver, C., see Zamani Ghabanbasani, M. (59) 77
Van Dijk, J., see De Vries, H.E. (59) 1

Whitlock, B.B., see Liu, Y. (59) 143
Wolfe, Jr., S.A., see Liu, Y. (59) 143

Yanagisawa, N., see Matsuda, M. (59) 35

Zamani Ghabanbasani, M., Gu, X.X., Spaepen, M., Vandevyver, C., Raus, J., Marynen, P., Carton, H. and Cassiman, J.J.
Importance of HLA-DRB1 and DQA1 genes and of the amino acid polymorphisms in the functional domain of DRβ1 chain in multiple sclerosis (59) 77
Zielinski, C., see Sachs, G. (59) 83
Zijlstra, F.J., see De Vries, H.E. (59) 1

Journal of Neuroimmunology

Subject Index (Vol. 59)

Adhesion molecules
Inflammation; Myositis (Tews, D.S. (59) 185)

Adrenocorticotropic hormone
Natural killer cell activity; Arecoline; Conditioned response (Demissie, S. (59) 57)

Alpha subunit
Interleukin-2 receptor; Cytokine; Brain (Petitto, J.M. (59) 135)

Alternative splicing
Lymphocyte; Reverse transcription-polymerase chain reaction; Orphan opioid receptor; Antisense oligonucleotide (Halford, W.P. (59) 91)

Alzheimer's disease
Beta-amyloid protein; Interleukin-8; Mononuclear phagocytes (Meda, L. (59) 29)

Amino acid polymorphism
Multiple sclerosis; HLA; DRB1; DQα1 (Zamani Ghabanbasani, M. (59) 77)

Aminopeptidase N
Blood–brain barrier; Pericyte; Experimental autoimmune encephalomyelitis (Kunz, J. (59) 41)

Antisense oligonucleotide
Lymphocyte; Reverse transcription-polymerase chain reaction; Orphan opioid receptor; Alternative splicing (Halford, W.P. (59) 91)

Arecoline
Natural killer cell activity; Adrenocorticotropic hormone; Conditioned response (Demissie, S. (59) 57)

Astrocyte
Postmortem delay; Experimental allergic encephalomyelitis; Multiple sclerosis; Brain macrophage; Microglia (De Groot, C.J.A. (59) 123)

Astrocytoma
Interleukin-6; Substance P; Lipopolysaccharide; Staurosporine; Calmodulin antagonist (Palma, C. (59) 155)

Autoimmunity
Lewis rat; LER rat; Experimental allergic encephalomyelitis; T cell clones (Blankenhorn, E.P. (59) 173)

Beta-amyloid protein
Alzheimer's disease; Interleukin-8; Mononuclear phagocytes (Meda, L. (59) 29)

Blood–brain barrier
Inflammation; Cerebral endothelial cells; Eicosanoids (De Vries, H.E. (59) 1)

Pericyte; Aminopeptidase N; Experimental autoimmune encephalomyelitis (Kunz, J. (59) 41)

Brain
Interleukin-2 receptor; Alpha subunit; Cytokine (Petitto, J.M. (59) 135)

Brain macrophage
Postmortem delay; Experimental allergic encephalomyelitis; Multiple sclerosis; Astrocyte; Microglia (De Groot, C.J.A. (59) 123)

Breast cancer
Natural killer cell activity; Lymphokine-activated killer cell activity; Major depressive disorder (Sachs, G. (59) 83)

Calmodulin antagonist
Astrocytoma; Interleukin-6; Substance P; Lipopolysaccharide; Staurosporine (Palma, C. (59) 155)

C57BL/6
Theiler's murine encephalomyelitis virus; SWR; C57L; Demyelinating disease; Multiple sclerosis (Nicholson, S.M. (59) 19)

Cerebral endothelial cells
Blood–brain barrier; Inflammation; Eicosanoids (De Vries, H.E. (59) 1)

C57L
Theiler's murine encephalomyelitis virus; SWR; C57BL/6; Demyelinating disease; Multiple sclerosis (Nicholson, S.M. (59) 19)

Conditioned response
Natural killer cell activity; Arecoline; Adrenocorticotropic hormone (Demissie, S. (59) 57)

Cytokine
Hippocampus; Trimethyltin; Glial fibrillary acidic protein (Maier, W.E. (59) 65)

Interleukin-2 receptor; Alpha subunit; Brain (Petitto, J.M. (59) 135)

Demyelinating disease
Theiler's murine encephalomyelitis virus; SWR; C57BL/6; C57L; Multiple sclerosis (Nicholson, S.M. (59) 19)

DQα1
Multiple sclerosis; HLA; Amino acid polymorphism; DRB1 (Zamani Ghabanbasani, M. (59) 77)

DRB1
Multiple sclerosis; HLA; Amino acid polymorphism; DQα1 (Zamani Ghabanbasani, M. (59) 77)

Dystrophin
Muscular dystrophy; MDX mouse; Thymus; Extracellular matrix (Quirico-Santos, T. (59) 9)

Eicosanoids
Blood–brain barrier; Inflammation; Cerebral endothelial cells (De Vries, H.E. (59) 1)

Endothelial cell
Soluble vascular cell adhesion molecule-1; Multiple sclerosis; Human T lymphotropic virus type-1-associated myelopathy (Matsuda, M. (59) 35)

Experimental allergic encephalomyelitis
Postmortem delay; Multiple sclerosis; Brain macrophage; Astrocyte; Microglia (De Groot, C.J.A. (59) 123)

Lewis rat; LER rat; Autoimmunity; T cell clones (Blankenhorn, E.P. (59) 173)

Experimental autoimmune encephalomyelitis
Blood–brain barrier; Pericyte; Aminopeptidase N (Kunz, J. (59) 41)

Extracellular matrix
Muscular dystrophy; Dystrophin; MDX mouse; Thymus (Quirico-Santos, T. (59) 9)

Glial fibrillary acidic protein
Cytokines; Hippocampus; Trimethyltin (Maier, W.E. (59) 65)

Healthy donor
Myelin basic protein; T cell receptor; T cell repertoire; Multiple sclerosis (Shanmugam, A. (59) 165)

Hippocampus
Cytokines; Trimethyltin; Glial fibrillary acidic protein (Maier, W.E. (59) 65)

HLA
Multiple sclerosis; Amino acid polymorphism; DRB1; DQα1 (Zamani Ghabanbasani, M. (59) 77)

Human T lymphotropic virus type-1-associated myelopathy
Soluble vascular cell adhesion molecule-1; Multiple sclerosis; Endothelial cell (Matsuda, M. (59) 35)

Immunosuppressant
Sigma receptor; Neuro-immunomodulation; Opiate receptor; Phencyclidine receptor; Leukocyte; Lymphocyte (Liu, Y. (59) 143)

Inflammation
Blood–brain barrier; Cerebral endothelial cells; Eicosanoids (De Vries, H.E. (59) 1)

Adhesion molecules; Myositis (Tews, D.S. (59) 185)

Interleukin-2 receptor
Alpha subunit; Cytokine; Brain (Petitto, J.M. (59) 135)

Interleukin-6
Astrocytoma; Substance P; Lipopolysaccharide; Staurosporine; Calmodulin antagonist (Palma, C. (59) 155)

Interleukin-8
Alzheimer's disease; Beta-amyloid protein; Mononuclear phagocytes (Meda, L. (59) 29)

Junctional region
T cell receptor; Limited heterogeneity (Kalman, B. (59) 195)

LER rat
Lewis rat; Autoimmunity; Experimental allergic encephalomyelitis; T cell clones (Blankenhorn, E.P. (59) 173)

Leukocyte
Sigma receptor; Neuro-immunomodulation; Immunosuppressant; Opiate receptor; Phencyclidine receptor; Lymphocyte (Liu, Y. (59) 143)

Lewis rat
LER rat; Autoimmunity; Experimental allergic encephalomyelitis; T cell clones (Blankenhorn, E.P. (59) 173)

Limited heterogeneity
T cell receptor; Junctional region (Kalman, B. (59) 195)

Linkage disequilibrium
Multiple sclerosis; TAP2 (Bennetts, B.H. (59) 113)

Lipopolysaccharide
Astrocytoma; Interleukin-6; Substance P; Staurosporine; Calmodulin antagonist (Palma, C. (59) 155)

Lymphocyte
Reverse transcription-polymerase chain reaction; Orphan opioid receptor; Antisense oligonucleotide; Alternative splicing (Halford, W.P. (59) 91)

Sigma receptor; Neuro-immunomodulation; Immunosuppressant; Opiate receptor; Phencyclidine receptor; Leukocyte (Liu, Y. (59) 143)

Lymphokine-activated killer cell activity
Natural killer cell activity; Breast cancer; Major depressive disorder (Sachs, G. (59) 83)

Major depressive disorder
Natural killer cell activity; Lymphokine-activated killer cell activity; Breast cancer (Sachs, G. (59) 83)

MDX mouse
Muscular dystrophy; Dystrophin; Thymus; Extracellular matrix (Quirico-Santos, T. (59) 9)

Menstrual cycle
Psychological stress; Mitogenic responsiveness; Natural killer cells (Caggiula, A.R. (59) 103)

Microglia
Postmortem delay; Experimental allergic encephalomyelitis; Multiple sclerosis; Brain macrophage; Astrocyte (De Groot, C.J.A. (59) 123)

Mitogenic responsiveness
Psychological stress; Natural killer cells; Menstrual cycle (Caggiula, A.R. (59) 103)

Mononuclear phagocytes
Alzheimer's disease; Beta-amyloid protein; Interleukin-8 (Meda, L. (59) 29)

Multiple sclerosis
Theiler's murine encephalomyelitis virus; SWR; C57BL/6; C57L; Demyelinating disease (Nicholson, S.M. (59) 19)

Soluble vascular cell adhesion molecule-1; Human T lymphotropic virus type-1-associated myelopathy; Endothelial cell (Matsuda, M. (59) 35)

HLA; Amino acid polymorphism; DRB1; DQα1 (Zamani Ghabanbasani, M. (59) 77)

Linkage disequilibrium; TAP2 (Bennetts, B.H. (59) 113)

Postmortem delay; Experimental allergic encephalomyelitis; Brain macrophage; Astrocyte; Microglia (De Groot, C.J.A. (59) 123)

Myelin basic protein; Healthy donor; T cell receptor; T cell repertoire (Shanmugam, A. (59) 165)

Susceptibility; TAP genes (Bell, R.B. (59) 201)

Muscular dystrophy
Dystrophin; MDX mouse; Thymus; Extracellular matrix (Quirico-Santos, T. (59) 9)

Myelin basic protein
Healthy donor; T cell receptor; T cell repertoire; Multiple sclerosis (Shanmugam, A. (59) 165)

Myositis
Adhesion molecules; Inflammation (Tews, D.S. (59) 185)

Natural killer cell activity
Arecoline; Adrenocorticotropic hormone; Conditioned response (Demissie, S. (59) 57)

Lymphokine-activated killer cell activity; Breast cancer; Major depressive disorder (Sachs, G. (59) 83)

Natural killer cells
Psychological stress; Mitogenic responsiveness; Menstrual cycle (Caggiula, A.R. (59) 103)

Neuro-immunomodulation
Sigma receptor; Immunosuppressant; Opiate receptor; Phencyclidine receptor; Leukocyte; Lymphocyte (Liu, Y. (59) 143)

Opiate receptor
Sigma receptor; Neuro-immunomodulation; Immunosuppressant; Phencyclidine receptor; Leukocyte; Lymphocyte (Liu, Y. (59) 143)

Orphan opioid receptor
Lymphocyte; Reverse transcription-polymerase chain reaction; Antisense oligonucleotide; Alternative splicing (Halford, W.P. (59) 91)

Pericyte
Blood–brain barrier; Aminopeptidase N; Experimental autoimmune encephalomyelitis (Kunz, J. (59) 41)

Phencyclidine receptor
Sigma receptor; Neuro-immunomodulation; Immunosuppressant; Opiate receptor; Leukocyte; Lymphocyte (Liu, Y. (59) 143)

Postmortem delay
Experimental allergic encephalomyelitis; Multiple sclerosis; Brain macrophage; Astrocyte; Microglia (De Groot, C.J.A. (59) 123)

Psychological stress
Mitogenic responsiveness; Natural killer cells; Menstrual cycle (Caggiula, A.R. (59) 103)

Reverse transcription-polymerase chain reaction
Lymphocyte; Orphan opioid receptor; Antisense oligonucleotide; Alternative splicing (Halford, W.P. (59) 91)

Sigma receptor
Neuro-immunomodulation; Immunosuppressant; Opiate receptor; Phencyclidine receptor; Leukocyte; Lymphocyte (Liu, Y. (59) 143)

Soluble vascular cell adhesion molecule-1
Multiple sclerosis; Human T lymphotropic virus type-1-associated myelopathy; Endothelial cell (Matsuda, M. (59) 35)

Staurosporine
Astrocytoma; Interleukin-6; Substance P; Lipopolysaccharide; Calmodulin antagonist (Palma, C. (59) 155)

Substance P
Astrocytoma; Interleukin-6; Lipopolysaccharide; Staurosporine; Calmodulin antagonist (Palma, C. (59) 155)

Susceptibility
Multiple sclerosis; TAP genes (Bell, R.B. (59) 201)

SWR
Theiler's murine encephalomyelitis virus; C57BL/6; C57L; Demyelinating disease; Multiple sclerosis (Nicholson, S.M. (59) 19)

TAP2
Linkage disequilibrium; Multiple sclerosis (Bennetts, B.H. (59) 113)

TAP genes
Multiple sclerosis; Susceptibility (Bell, R.B. (59) 201)

T cell clones
Lewis rat; LER rat; Autoimmunity; Experimental allergic encephalomyelitis (Blankenhorn, E.P. (59) 173)

T cell receptor
Myelin basic protein; Healthy donor; T cell repertoire; Multiple sclerosis (Shanmugam, A. (59) 165)

Junctional region; Limited heterogeneity (Kalman, B. (59) 195)

T cell repertoire
Myelin basic protein; Healthy donor; T cell receptor; Multiple sclerosis (Shanmugam, A. (59) 165)

Theiler's murine encephalomyelitis virus
SWR; C57BL/6; C57L; Demyelinating disease; Multiple sclerosis (Nicholson, S.M. (59) 19)

Thymus
Muscular dystrophy; Dystrophin; MDX mouse; Extracellular matrix (Quirico-Santos, T. (59) 9)

Trimethyltin
Cytokines; Hippocampus; Glial fibrillary acidic protein (Maier, W.E. (59) 65)
